

ANGEL HAIR TRAPS

Features

- Field proven
- Floor-mount or Line-mount design
- Removes stringers without disruption of material flow
- Clear view window for level detection
- Easy clean-out

Angel Hair can wrap around augers, cause material to bridge hoppers, and contaminate the system. An Advanced Blending Solutions' Angel Hair Trap can remove these stringers before they become a problem. Angel Hair Traps can also be used as a tool to pinpoint where Angel Hair is being created. Install several or move them around a resin system to find problem areas. Angel Hair Traps are designed for use in vacuum lines only.

Advanced Blending Solutions manufactures a full line of vacuum convey, feeding, blending, and storage equipment for the plastics industry. Advanced Blending Solutions also offers a full line of PLC/PC-based controls for gravimetric extrusion control, vacuum sequence control, extruder/die temperature control, and blender control.

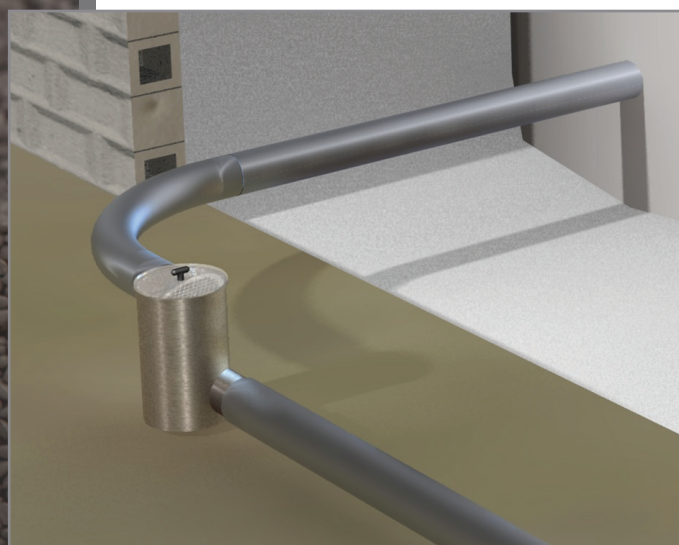

ORDERING INFORMATION

Item	Line Size	Vessel Diameter	Order Code
Angel Hair Trap	38 mm	254 mm	I-AHT-A-10
	50 mm	254 mm	I-AHT-B-10
	63 mm	254 mm	I-AHT-C-10
	76 mm	254 mm	I-AHT-D-10
	89 mm	457 mm	I-AHT-F-18
	102 mm	457 mm	I-AHT-G-18
	129 mm	457 mm	I-AHT-X-18
Insert Order Code Selections to Create Part Number:		_____	

Vacuum Loss Table

Line Size	Vessel Diameter	Pressure Drop
76 mm	457 mm	-34 mbar
76 mm	457 mm	-34 mbar
